Tax Collector Mike Fasano Announces a Temporary Reduction in Services at the Tax Collector's Office Located at the West Pasco Government Center

Due to long needed renovations, the **Tax Collector's Office** at the **West Pasco Government Center** in **New Port Richey** will experience a temporary reduction in available services starting June 1 until said work is completed. Many services will be available in an office adjacent to the existing tax collector's office (please follow the signs). The exact date of the return to full service is yet unknown, but some point in July is anticipated.

The services impacted are as follows:

- Our **New Port Richey Office** will NOT be able to provide any driver license services (which includes any driver testing and Hazmat services – Hazardous Materials). Customers needing driver license services may visit our **Gulf Harbors Office** (4720 U.S. Highway 19, New Port Richey 34652). Customers needing Hazmat services may visit our **Dade City Office** (14236 – 6th Street, Room 100, Dade City 33523).
- The **New Port Richey Office** will be able to provide ALL title and registration processing (including fast titles), birth certificate issuance, hunting & fishing, and property tax payments.

For more detailed information regarding this temporary reduction in some services at the **New Port Richey Office** please feel free to contact our **Centralized Call Center** at (727) 847-8032, (352) 521-4338 or (813) 235-6076.

“Thank you for your understanding of any inconvenience this temporary reduction in service may cause,” remarks **Tax Collector Mike Fasano**. “We are committed to providing the best possible service in a timely manner to all our customers. We are all looking forward to that day this summer when ALL services will once again be available to customers in our **New Port Richey Office**.”
